

Protocol for Responding to and Assessing Patient Assets, Risks, and Experiences (PRAPARE): Used by the Redwood Community Health Coalition*

PRAPARE is a national, standardized patient risk assessment protocol that allows providers to collect patient-level data on the social determinants of health. It was developed and is owned by the National Association of Community Health Centers, the Association of Asian Pacific Community Health Organizations, and the Oregon Primary Care Association. For more information and resources regarding PRAPARE, visit www.nachc.org/prapare.

ABOUT THIS RESOURCE

This resource is a companion to the Center for Health Care Strategies’ brief, *Screening for Social Determinants of Health in Populations with Complex Needs: Implementation Considerations*. The brief examines how organizations participating in *Transforming Complex Care* (TCC), a multi-site national initiative funded by the Robert Wood Johnson Foundation, are assessing and addressing social determinants of health for populations with complex needs. To download the brief and view additional assessment tools, visit www.chcs.org/sdoh-screening/.

* PRAPARE was developed and is owned by the National Association of Community Health Centers, Inc. (NACHC) Association of Asian Pacific Community Health Organizations, and Oregon Primary Care Association. PRAPARE and its resources are proprietary information of NACHC and its partners. For more information about this tool, please visit www.nachc.org/prapare.
