

Center for Health Care Strategies

The Center for Health Care Strategies (CHCS) is dedicated to strengthening the U.S. health care system to ensure better, more equitable outcomes, particularly for people served by Medicaid.

Visit CHCS.org to learn about our work, download practical resources, and sign up for email updates. We're also on LinkedIn and Twitter @CHCShealth.

MAKING HEALTH CARE WORK FOR MORE PEOPLE

CHCS works to improve outcomes for people who face serious barriers to well-being, like complex health and social needs and systemic racism.

We work across sectors and with communities to connect people and ideas that spark insights, build expertise, and spread innovations.

Our work helps our partners design and implement policies and programs that make health care more effective, efficient, and equitable.

TOGETHER WITH OUR PARTNERS, CHCS ADVANCES...

EFFECTIVE MODELS

for care delivery that harness the field's best practices to meet critical needs — like ensuring integrated, whole-person care for individuals with complex needs.

EFFICIENT SOLUTIONS

for policies and programs that extend the finite human and financial resources available for the delivery of vital services, and that help tie payment to value.

EQUITABLE OUTCOMES

for people that reflect improvements in health and well-being, particularly for people and communities facing the greatest needs and health disparities.

TO ACHIEVE THESE GOALS, WE...

Identify and advance best practices

Provide training and technical assistance

Connect peers and experts across sectors

Drive policy improvements through evidence

Develop the capacity of health care leaders
